Pets

Problem:
Members bringing their pets onto the grounds.

Solution:
Pets are not allowed on the grounds at any time. If a member wants to load their pets onto their boat they must ask for permission!

Guest

Problem:
Members calling and asking if guests can come before they arrive.

Solution:
Members must be present at all times **NO EXCEPTION!** Do not call and ask if guests can arrive before you because we will say **NO!**

Gate Lists

Problem:
Members not providing us with a list of guests.

Solution:
Present management or the person at the gate with a list of guests for that day upon arrival, or else the guests will not be admitted!

Winter Onshore Storage

Reminder for winter storage in 2006: members must pre-pay by either paying in person at the club or sending in a check. If members leave their boats without paying for winter storage, the fee will double to \$150!
